

Héctor Jaraba

STAFF FRONTEND ENGINEER

+34 620 74 37 79 | hi@hectorjaraba.com | Valencia, Spain | linkedin.com/in/hjaraba

PROFESSIONAL SUMMARY

I am a Staff Frontend Engineer with strong fundamentals in JavaScript, TypeScript, React and Vue, experienced in building high-performance, scalable web applications with SSR, accessibility, and modern UI architecture. I am passionate about creating reliable, maintainable systems and improving developer experience.

Frontend Architectures	Agile Practices	Project Management	Technical Leadership
System Design	Testing & QA	Developer Experience	UI & UX
Accessibility	Critical Thinking	Agentic Coding	Performance Optimization

WORK EXPERIENCE

Staff Engineer | NEW WORK SE (XING) Remote | Sep 2026 – Present

- Set frontend technical direction and lead platform initiatives that improve developer experience and engineering consistency across teams
- Serve as an AI Ambassador, helping engineering teams adopt effective AI-assisted development practices and shaping internal AI software factory initiatives
- Contribute as a core member of our internal SSR framework, helping establish shared foundations
- Improve observability for frontend systems through OpenTelemetry instrumentation
- Contributed to the migration of the internal SSR framework from on-premise infrastructure to the cloud

Senior Frontend Engineer | NEW WORK SE (XING / Onlyfy) Remote | Sep 2022 – Sep 2026

- Led frontend initiatives to enhance developer experience across a large monorepo using React, TypeScript, and Vite.
- Designed and maintained CI/CD pipelines with GitHub Actions
- Served as a frontend advisor within the Technical Advisory Group, delivering architectural guidance and aligning cross-team technical decisions.
- Contributed to the company's AI Workforce, shaping internal agentic coding workflows.
- Conducted technical interviews and provided actionable feedback to maintain high engineering standards.
- Contributed to the company-wide frontend community, promoting standardized solutions.
- Mentored engineers to encourage growth and adoption of modern best practices in React and TypeScript.

Senior Frontend Engineer | mimacom Remote | Oct 2020 – Sep 2022

- Developed responsive banking applications using Vue 3 (Composition API), Vuex, and TypeScript in a microfrontends setup (Single-SPA).
- Created a shared design system based on Vuetify, ensuring consistency across multiple products.
- Collaborated with UX and backend teams to define API contracts and improve UI reliability.

Frontend Developer | S2 Grupo Valencia, Spain (Hybrid) | Sep 2019 – Oct 2020

- Built cybersecurity web applications using Vue, Nuxt, and RESTful APIs with strong focus on performance.
- Developed a Storybook-based design system and implemented testing strategy with Jest and Cypress.

Héctor Jaraba

- Earlier Experience | Various companiesValencia | 2015 – 2019
- Roles included Tech Manager (Elite Sports 17), Solutions Assistant (Everis), Web Developer (Blogestudio), and Founder (Ableto.co).
 - Worked with Angular, .NET, WordPress, and PHP, focusing on performance optimization and accessibility.

EDUCATION

MBA, Business Expert - Business Administration and Management thePower	2019 – 2020
Bachelor Computer Science Universitat Politècnica de València (UPV)	2015 – 2019
Higher Vocational Training in Web Application Development Solvam	2013 – 2015
Intermediate Vocational Training in Microcomputer Systems and Networks IES Rodrigo Botet	2010 – 2012

TECHNICAL SKILLS

Languages	JavaScript (ESNext), TypeScript
Frontend	HTML5, CSS3, React, Next.js, Vue, Redux, Zustand, Styled Components, Tailwind, REST, GraphQL
Backend	Node.js, Express
Architecture & Patterns	Monorepos, Microfrontends, Server-Side Rendering (SSR), Design Systems, SOLID Principles
Testing & Quality	Jest, Vitest, Playwright, Cypress, Testing Library, Storybook, Lighthouse, Accessibility
Tooling	Vite, Webpack, Rollup, ESLint, Prettier, Docker, GitHub Actions
AI & Agentic Development	Claude Code, Codex, Agentic Coding Workflows, MCP Servers

AWARDS & ACHIEVEMENTS

- 3rd Prize | Startup Weekend Valencia, Spring EditionValencia | Mar 2015
- Issued by UP Global, for the project Ableto. Developed an assistive communication app enabling users with reduced mobility and loss of speech to express themselves using one-finger gestures.

CERTIFICATIONS

Advanced React Meta (Coursera)	Sep 2024
CTO Course: Leading Technical Talent in Startups Universitat Politècnica de València (UPV)	Jul 2016
Professional Git and GitHub Platzi	Jan 2015
Digital Strategy and Marketing Platzi	Nov 2014
